HEALTH: MEN'S HEALTH MONTH: JUNE 2012

The CareSource Foundation reminds everyone to focus on the men and boys in their lives and support good health, disease prevention and routine screening.

Diet and exercise play a big part in health and long life, but regular wellness checkups and knowing family history of diseases also makes a difference. Whether it's catching up on immunizations for your son, getting back to that challenging-but beneficial-workout that strengthen the abs or scheduling to have blood drawn to dispel prostate cancer concerns, there's always something that can be done to get even closer to better health. And while men may be the first to say they're fine, statistics show that on average, men die about five years sooner than women and have higher mortality rates in the areas of cancer and heart disease. Men are also less likely to schedule routine medical exams for preventive screenings and more likely to be uninsured.

But the good news is that the combined support of health professionals, family members, employers and researchers can help bring attention to these issues and encourage men to get to the optimal level of health for their lives.

CAAFIMAADKA: BISHA CAAFIMAADKA RAGGA: JUUNYO 2012

CareSource Foundation waxay xusuusinaysaa dhammaanteen in aan u soo jeedsanno raga iyo wiilasha nagu tacalluqa caafimaadkooda iyo in aan ka taageerno ka hortagga cudurrada iyo in ay is baaraan.

Cuntada iyo jimicsigu waxay qayb libaax kaga jiraan caafimaadka iyo cimriga suuban, laakiin baaritaan caafimaad oo joogto ah iyo ogaalka taariikhda qoyska ee cudurradu waa muhiim. Hadday ahaan lahayd in aad cunugaaga tallaalka u dhammays tirto, jimicsi in aad samayso, ama in aad dhiig iska qaaddo si lagaaga baaro kansarka qanjirka gumaarka, mar walba waxaa jira tillaabooyin aad qaadi karto si aad caafimaadkaaga u hubiso. In kastoo raggu sheegtaan caafimaad mar walba, waxaa la caddeeyey in raggu dhintaan shan sano ka hor dumarka celcelis ahaan oo ay uga badan yihiin jirrooyinka wadnaha iyo kansarka. Ragga waxay u dhowdahay in aysan dhaqtar arkin oo aysan caymis caafimaad lahayn.

Warka wanaagsanse waa haddii la isku daro taageerada shaqaalaha caafimaadka, xubnaha qoyska, iyo shaqadaba waxaa raga u suurtoobeysa in ay caafimaad ku waaraan.
